

WATER-BASED REFRESHER FOR WOOD FRAMES AND SHUTTERS - EASY COAT

EASY COAT is a ready-to-use clear water-based refresher for regular use on painted window frames and shutters (three/four times a year). Its regenerative action prevents the degradation of the coating film and keeps the beauty of the wood intact.

INTENDED USES

Wood frames, shutters, fences, balconies and other wood items located outdoors.

APPLICATION

- If the surface of the frames and shutters is covered in dust or other impurities, wash first with FAST CLEANER; otherwise, apply EASY COAT directly and dry with the fine microfiber cloth until fully absorbed.
 - Any product residues left on the glass can be removed with a dry cloth; this will also help to clean the glass.
-

Interior and exterior use

Ready to use

Application with cloth

CHEMICAL/PHYSICAL CHARACTERISTICS

Specific weight: 1.01±0.05 g/ml

WARNINGS

Keep from freezing. Store at temperatures between 5°C and 35°C.

Mix well before use.

If medical advice is needed, have product container or label at hand.

Keep out of reach of children.

Dispose of contents and container in accordance with local, regional, international regulations.

SAFETY RECOMMENDATIONS

Consult the product's Safety Data Sheet (SDS), which can be downloaded from the www.icaforyou.com website.

The user must first ensure the suitability of the product for the specific intended use. We accept no responsibility for the outcome of the processing operations.
