

Revision nr. 8

Dated 07/05/2020 Printed on 13/05/2020

# PULIWOOD - PULIWOOD NEUTRAL DETERGENT FOR COATED WOODEN FLOORING

Page n. 1/15 Replaced revision:7 (Dated: 27/04/2020)

Accord	Safety Data Sheet ling to Annex II to REACH - Regulation 2015/830
SECTION 1. Identification of the subs	stance/mixture and of the company/undertaking
<b>1.1. Product identifier</b> Code: Product name	PULIWOOD PULIWOOD NEUTRAL DETERGENT FOR COATED WOODEN FLOORING
1.2. Relevant identified uses of the substance or m Intended use Paint or related mate	
<b>1.3. Details of the supplier of the safety data sheet</b> Name Full address District and Country	ICA S.p.A. Via S. Pertini, 52 62012 Civitanova Marche (MC) ITALY Tel. +39 0733 8080 Fax +39 0733 808140
e-mail address of the competent person responsible for the Safety Data Sheet Product distribution by:	regulatoryaffairs@icaspa.com INDUSTRIA CHIMICA ADRIATICA S.p.A.
<b>1.4. Emergency telephone number</b> For urgent inquiries refer to	Centro antiveleni – Ospedale di Firenze (24/24 h) Telefono: +39 055 794 7819
SECTION 2. Hazards identification	
	he provisions set forth in EC Regulation 1272/2008 (CLP). nces in concentrations such as to be declared in section no. 3, it requires a safety data sheet with 015/830.
2.2. Label elements	
Hazard labelling pursuant to EC Regulation 1272/2008 Hazard pictograms:	(CLP) and subsequent amendments and supplements.

The full wording of hazard (H) phrases is given in section 16 of the sheet.

### **SECTION 4. First aid measures**

### 4.1. Description of first aid measures

EYES: Remove contact lenses, if present. Wash immediately with plenty of water for at least 15 minutes, opening the eyelids fully. If problem persists, seek medical advice. SKIN: Remove contaminated clothing. Wash immediately with plenty of water. If irritation persists, get medical advice/attention. Wash contaminated

clothing before using it again.

INHALATION: Remove to open air. In the event of breathing difficulties, get medical advice/attention immediately. INGESTION: Get medical advice/attention. Induce vomiting only if indicated by the doctor. Never give anything by mouth to an unconscious person, unless authorised by a doctor.

#### 4.2. Most important symptoms and effects, both acute and delayed

PULIWOOD - PULIWOOD NEUTRAL DETERGENT FOR COATED WOODEN FLOORING

Revision nr. 8

#### Dated 07/05/2020 Printed on 13/05/2020

Page n. 3/15 Replaced revision:7 (Dated: 27/04/2020)

Specific information on symptoms and effects caused by the product are unknown.

4.3. Indication of any immediate medical attention and special treatment needed

Information not available

## **SECTION 5. Firefighting measures**

### 5.1. Extinguishing media

SUITABLE EXTINGUISHING EQUIPMENT The extinguishing equipment should be of the conventional kind: carbon dioxide, foam, powder and water spray. UNSUITABLE EXTINGUISHING EQUIPMENT None in particular.

### 5.2. Special hazards arising from the substance or mixture

HAZARDS CAUSED BY EXPOSURE IN THE EVENT OF FIRE Do not breathe combustion products.

### 5.3. Advice for firefighters

GENERAL INFORMATION

Use jets of water to cool the containers to prevent product decomposition and the development of substances potentially hazardous for health. Always wear full fire prevention gear. Collect extinguishing water to prevent it from draining into the sewer system. Dispose of contaminated water used for extinction and the remains of the fire according to applicable regulations.

SPECIAL PROTECTIVE EQUIPMENT FOR FIRE-FIGHTERS

Normal fire fighting clothing i.e. fire kit (BS EN 469), gloves (BS EN 659) and boots (HO specification A29 and A30) in combination with self-contained open circuit positive pressure compressed air breathing apparatus (BS EN 137).

### **SECTION 6. Accidental release measures**

### 6.1. Personal precautions, protective equipment and emergency procedures

#### Block the leakage if there is no hazard.

Wear suitable protective equipment (including personal protective equipment referred to under Section 8 of the safety data sheet) to prevent any contamination of skin, eyes and personal clothing. These indications apply for both processing staff and those involved in emergency procedures.

### 6.2. Environmental precautions

The product must not penetrate into the sewer system or come into contact with surface water or ground water.

### 6.3. Methods and material for containment and cleaning up

Collect the leaked product into a suitable container. Evaluate the compatibility of the container to be used, by checking section 10. Absorb the remainder with inert absorbent material. Make sure the leakage site is well aired. Contaminated material should be disposed of in compliance with the provisions set forth in point 13.

#### 6.4. Reference to other sections

PULIWOOD - PULIWOOD NEUTRAL DETERGENT FOR COATED WOODEN FLOORING Revision nr. 8

Dated 07/05/2020 Printed on 13/05/2020

Page n. 4/15

Replaced revision:7 (Dated: 27/04/2020)

Any information on personal protection and disposal is given in sections 8 and 13.

### **SECTION 7. Handling and storage**

### 7.1. Precautions for safe handling

Keep away from heat, sparks and naked flames; do not smoke or use matches or lighters. Without adequate ventilation, vapours may accumulate at ground level and, if ignited, catch fire even at a distance, with the danger of backfire. Avoid bunching of electrostatic charges. When performing transfer operations involving large containers, connect to an earthing system and wear antistatic footwear. Vigorous stirring and flow through the tubes and equipment may cause the formation and accumulation of electrostatic charges. In order to avoid the risk of fires and explosions, never use compressed air when handling. Open containers with caution as they may be pressurised. Do not eat, drink or smoke during use. Avoid leakage of the product into the environment.

#### 7.2. Conditions for safe storage, including any incompatibilities

Store only in the original container. Store the containers sealed, in a well ventilated place, away from direct sunlight. Store in a cool and well ventilated place, keep far away from sources of heat, naked flames and sparks and other sources of ignition. Keep containers away from any incompatible materials, see section 10 for details.

#### 7.3. Specific end use(s)

Information not available

### **SECTION 8. Exposure controls/personal protection**

#### 8.1. Control parameters

SECTION 10. Stability and re	eactivity

### 10.1. Reactivity

There are no particular risks of reaction with other substances in normal conditions of use.

Dipropylene glycol monomethyl ether

Forms peroxides with: air.

### 10.2. Chemical stability

The product is stable in normal conditions of use and storage.

### 10.3. Possibility of hazardous reactions

PULIWOOD - PULIWOOD NEUTRAL DETERGENT FOR COATED WOODEN FLOORING Revision nr. 8

#### Dated 07/05/2020 Printed on 13/05/2020

rinted on 13/05/2020

Page n. 9/15 Replaced revision:7 (Dated: 27/04/2020)

The vapours may also form explosive mixtures with the air.

Dipropylene glycol monomethyl ether

May react violently with: strong oxidising agents.

### 10.4. Conditions to avoid

Avoid overheating. Avoid bunching of electrostatic charges. Avoid all sources of ignition.

Dipropylene glycol monomethyl ether

Avoid exposure to: sources of heat.Possibility of explosion.

### 10.5. Incompatible materials

Information not available

### 10.6. Hazardous decomposition products

In the event of thermal decomposition or fire, gases and vapours that are potentially dangerous to health may be released.

## **SECTION 11. Toxicological information**

In the absence of experimental data for the product itself, health hazards are evaluated according to the properties of the substances it contains, using the criteria specified in the applicable regulation for classification. It is therefore necessary to take into account the concentration of the individual hazardous substances indicated in section 3, to evaluate the toxicological effects of exposure to the product.

### 11.1. Information on toxicological effects

Metabolism, toxicokinetics, mechanism of action and other information

Information not available

Information on likely routes of exposure

Information not available

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Information not available

Interactive effects

Information not available

14.6. Special precautions for user				
Not applicable				
14.7. Transport in bulk according to	Annex II of Marpol and the IBC Code			
Information not relevant				
SECTION 15. Regulatory	information			
-				
15.1 Safety health and environme	ental regulations/legislation specific for the substance or mixture			
13.1. Salety, health and environme				
Seveso Category - Directive 2012/18/8	EC: None			
Restrictions relating to the product or of	contained substances pursuant to Annex XVII to EC Regulation 1907/2006			
Draduat				
Product Point	40			
Substances in Candidate List (Art. 59 REACH)				
On the basis of available data, the pro	duct does not contain any SVHC in percentage greater than 0,1%.			
Substances subject to authorisation (Annex XIV REACH)				
None				
Substances subject to exportation reporting pursuant to (EC) Reg. 649/2012:				

Corrige
for you

Revision nr. 8

# PULIWOOD - PULIWOOD NEUTRAL DETERGENT FOR COATED WOODEN FLOORING

Dated 07/05/2020 Printed on 13/05/2020

Page n. 14/15

Replaced revision:7 (Dated: 27/04/2020)

None

Substances subject to the Rotterdam Convention:

None

Substances subject to the Stockholm Convention:

None

Healthcare controls

Information not available

German regulation on the classification of substances hazardous to water (AwSV, vom 18. April 2017)

WGK 1: Low hazard to waters

### 15.2. Chemical safety assessment

A chemical safety assessment has not been performed for the preparation/for the substances indicated in section 3.

### **SECTION 16. Other information**

Text of hazard (H) indications mentioned in section 2-3 of the sheet:

Flam. Liq. 2	Flammable liquid, category 2	
Eye Irrit. 2	Eye irritation, category 2	
STOT SE 3	Specific target organ toxicity - single exposure, category 3	
H225	Highly flammable liquid and vapour.	
H319	Causes serious eye irritation.	
H336	May cause drowsiness or dizziness.	
EUH210	Safety data sheet available on request.	

LEGEND:

- ADR: European Agreement concerning the carriage of Dangerous goods by Road
- CAS NUMBER: Chemical Abstract Service Number
- CE50: Effective concentration (required to induce a 50% effect)
- CE NUMBER: Identifier in ESIS (European archive of existing substances)
- CLP: EC Regulation 1272/2008
- DNEL: Derived No Effect Level
- EmS: Emergency Schedule
- GHS: Globally Harmonized System of classification and labeling of chemicals
- IATA DGR: International Air Transport Association Dangerous Goods Regulation
- IC50: Immobilization Concentration 50%
- IMDG: International Maritime Code for dangerous goods
- IMO: International Maritime Organization
