

## NEUTRAL REFRESHER FOR COATED WOOD FLOORING - PARCARE

Product for refreshing and protecting matt (PARCAREMATT) and glossy (PARCAREGLOSS) coated wood flooring as well as PVC flooring. Contains raw materials derived from renewable certified sources which cannot be transformed into food for humans and that help to lower the emission of carbon dioxide into the atmosphere. With its content of silver salts, PARCARE reduces the bacterial count of treated surfaces by 99% in 24 hours, helping to keep your surrounds healthy and sanitized. Its special formula nourishes wood flooring and refreshes the protective layer, preserving the original beauty of the floors while eliminating scratches and signs of wear and tear without making it slippery.

---

### SHEEN

PARCAREMATT MATT  
PARCAREGLOSS GLOSSY

---

### INTENDED USES

Coated wood flooring and PVC flooring for interiors.

---

### APPLICATION

- Carefully wash the floor to be treated, using PULIWOOD detergent.
  - SHAKE PARCARE THOROUGHLY BEFORE USE.
  - Pour PARCARE (without diluting it) onto the wood floor to be refreshed and spread it over the surface generously either with a fleece floor-wax applicator or a soft floor cloth made from synthetic or natural fibers that you have first moistened with a little water. If you want to get the most out of PARCARE, avoid spreading the product too thinly and make sure the surface treated is wet but free of blobs.
  - Leave to dry for at least one hour.
  - Apply another coat of product, either neat or diluted to 50% in water depending on how worn the flooring is.
  - The final result can be affected by the type of applicator used.
- 

Indoor use

Sanitizing shield

Cloth or rag application

Tool cleaning with water

Coverage 20–30 m<sup>2</sup>/L per coat

---

### CHEMICAL/PHYSICAL CHARACTERISTICS

Specific weight: 1.00±0.05 g/ml

---

### POINTS TO NOTE

Keep from freezing. Store at temperatures between 5°C and 35°C.  
Shake thoroughly before use. Do not use on unfinished, oiled or waxed wood flooring.  
Close the package properly after use. Clean the tools with water carefully after use and get rid of any excess product.  
If medical advice is needed, have a product container or label at hand.  
Keep out of reach of children.  
Dispose of contents and container in accordance with local, regional and international regulations.

---
